

Online language courses via Skype

In addition to the wide range of language courses in Frankfurt, Sprachtreff also offers online courses in 35 languages.

Advantages of online language courses:

- Learning from home with a laptop or PC
- no loss of time and no costs due to long journeys
- more free time for your hobbies
- You do not have to pay a babysitter for your children, just because you're taking a language course.
- a fantastic opportunity for friends, who live far away, despite the distance a little bit together.

Requirements for online language courses:

- You need a laptop, a tablet or a PC (you can also use Skype on your mobile, but it can be too small).
- You do not need a webcam or headset with headphones and microphone (only if your webcam, speakers and microphone are not pre-installed on your PC). If you have a laptop, all this is usually already included.
- a fast internet connection is required
- Download Skype
- Install Skype on your PC.
- You will now be asked to set up your Skype account. (with e-mail address and password, like a Facebook or Google Plus account)

Register as usual at Sprachtreff Frankfurt

- Please use our online registration form. In the "Course type" field, select "Online language course via Skype" from the drop-down menu.
- When you sign in, please make sure you provide the same email address you used to sign in to Skype.
- That's because your teacher is looking for you on Skype to contact you. Since there are many people with similar names, the only sure way to find you is to enter your email address as a search term.

Registration with 2 and 3 persons

Up to 3 people can take the language courses from different locations via Skype. Of course, you can also participate as a couple or mini-group from a computer workstation. In this case, however, you must also register individually. Please indicate the names of the other participants when registering.

Lessons via Skype - that's how it works:

- - sign in to Skype a few minutes before the course starts.
- - Switch on webcam and microphone by clicking on the icons
- - Your teacher will get in touch with you. Of course you can also try to find your teacher.
- - when the bell rings, your teacher calls you. Your teacher's photo and name will appear in the center of the screen.
- - You must answer the call by clicking on the video camera.
- - now you see your teacher on a big screen and yourself on a small screen next to him. Once you have turned on your camera and microphone, the virtual lesson can begin

Technical possibilities with Skype

With Skype you can

1. exchange documents

Teachers and students can upload and download documents and images. For example, your teacher can "hand out" task sheets and you can "submit" (upload) the finished documents (such as homework).

2. share your own screen

The student can share his screen and be corrected live by the teacher during a writing exercise.

3. write in chat

Of course, teachers and students can also communicate via chat.

For example, the teacher asks a question orally and the student writes the answer in the chat.

Preis pro Person

Price information for one, two and group lessons (3 persons):

Online private lessons under 10 lessons: 33 €/hour

	10 lessons à 45 minutes	20 lessons	ab 30 lessons	hours (60 min.)
